

*Through this art program, students will learn the value of creative expression, individuality and stress relief. While engaging the students in hands-on, messy (at times) expressive art activities, we will utilize simple art tools and exercises to create one of a kind designs. These designs will capture each student s unique vision.*

---

*The after school basketball program will involve students learning the basics and fundamentals of basketball while providing them with fun and skill-based experience. All ages will obtain better practice with hand-eye coordination and improved motor skills. Lessons, drills, and fun games will be used to better each student's abilities and improve their skills. No matter their experience they will find something useful to better their skills in basketball.*
